

Name: _____

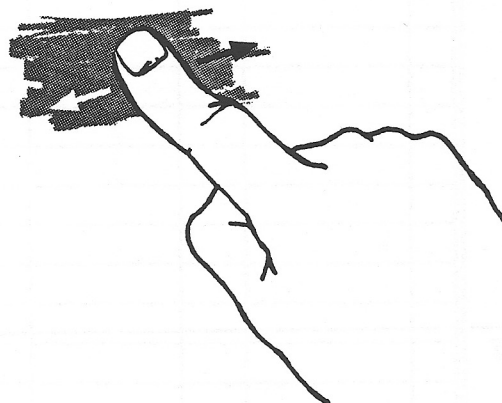

Master #8b

Date: _____

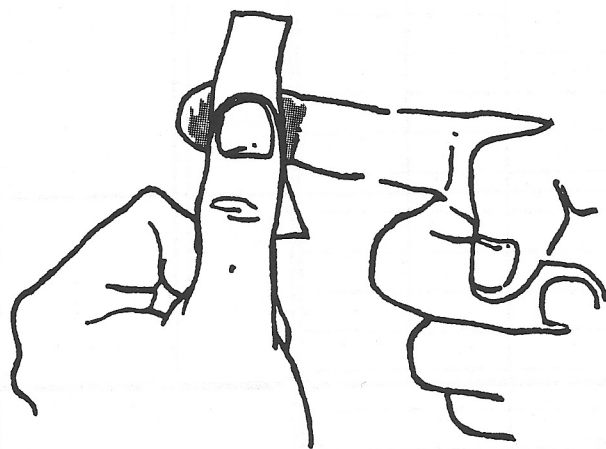

Graphite Prints

1. Rub a pencil lead (graphite) on a sheet of paper.

2. Rub your finger tip on the paper. Ensure that it is covered with graphite.

3. Put clear tape over your finger. Notice that the tape should be placed over the pad of your finger (not the tip).

4. Carefully pull off the tape and stick it on a sheet of paper.
